

# The Healthy Pet Club cutting the cost of veterinary care!

If your pet is not yet a member of our Healthy Pet Club, then you might just be missing out on enjoying some exclusive benefits for you both. Our HPC is designed to save you money by spreading the cost of your pets' preventative healthcare and ensures your cat, dog or rabbit receive their all-important routine treatments.

**Our Healthy Pet Club starts from just £10.99** for your puppy, kitten, and adult cat or dog and **£9.99 for a rabbit**. Payment is by monthly Direct Debit, making it easier to manage.

## Your Puppy & Kitten Club

Time your  
Pooch  
had a  
Hair Do?

If your dog could do with a bath or groom, then call our friendly **MiGroomers** at our **Shawbury Branch**. We cater for all types of breeds from large to small, and coats from smooth to curly. With regular care from our in-house groomer, your pet can say goodbye to bad hair days! If it's just a quick wash and go, or a complete head to toe groom, then Mi Groomer is just the place to come.

Regular grooming also provides the opportunity to spot any health problems in their early stages such as ticks, fleas, lumps or skin conditions, and while your pet is at our practice they benefit from full veterinary support.

**To book an appointment call our Shawbury branch on 01939 250655, and enjoy our easy on site parking when bringing your pet to the groomer.**

## Fireworks....

screach and fizz in the winter night, but for some pets they do cause a lot of fright!

**Follow our Five Firework tips** and remember, we have lots of help for pets and plenty of advice for owners, so please do contact us.

### 1. Create a Safe Haven

for your dog or cat in one room of your house.

### 2. Keep Your Pets Indoors

**4. NEVER Punish or Scold** a fearful pet. Play a game during the bangs and whizzes, it can encourage confidence.

### 3. Do Not Comfort Your Pet

A hard one we know, but it can reinforce their worry.

**5. Use a Calming Pheromone diffuser or spray.** Put on the TV or radio to mask the noise.

## Seasonal Pet Dos & Don'ts!

**Do.....** exercise pets regularly in the winter. It may be cold, but it's part of their routine care. Put your dog on a lead near frozen ponds. Rinse salt or grit from paws. Both can irritate skin. Help our feathered friends in winter and top up the wild bird feeding table.

Check that small furries living outside have plenty of warm, dry bedding, unfrozen water and ensure that hutches are draught and rain/snow proof. Supervise pets near log burners and open fires.

Clear away **antifreeze** spills. It tastes sweet to our pets, but can be fatal if ingested!

Store chocolate, foods containing it, grapes and raisins well out of reach, as these are very poisonous to your pets.

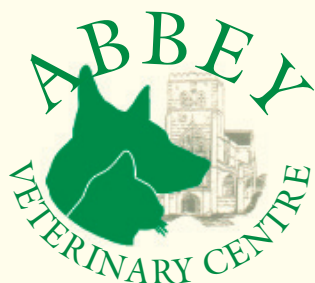

**Don't.....** give your pet too many treats. It can cause tummy upsets and unhealthy weight gain.

Feed turkey bones. These are sharp and can cause internal damage or get lodged in the throat.

Have real mistletoe/holly and their berries in your home. If ingested by your pet, both can cause vomiting, diarrhoea and drooling, plus blood pressure and breathing problems. Also a poinsettia's white sap is an irritant to the skin, mouth and throat causing itching and swelling.

Leave batteries or electronic cigarettes lying around to be chewed and swallowed. Both are extremely dangerous items for your pet.
